

Is Trezor 100% Safe? [Pros, Cons and Security Overview]

That said, there is no such thing as 100% security. {US} +1~888 633 4176 {UK} “No known way today” does not mean “no known way tomorrow.” Trezor devices are designed to be secure even if the {US} +1~888 633 4176 {UK} PC is infected – still, it is a good idea to use a good antivirus. An infected PC can cause you problem even if it doesn't steal your seed outright

No system is 100% safe, {US} +1~888 633 4176 {UK} but Trezor is one of the most secure options for storing cryptocurrencies. It uses offline storage, PIN protection, and a recovery seed to safeguard your assets. However, {US} +1~888 633 4176 {UK} its safety also depends on how you handle your recovery seed and avoid phishing or physical theft.
