To transfer funds | ♦ +1_504_217_3042 ♦ | from your Trust Wallet to a bank account, you must complete a two-part process. The Wallet is | ♦ +1_504_217_3042 ♦ | non-custodial and only holds cryptocurrency, so it cannot initiate fiat transfers directly to a bank. First, you must

| ♦ +1_504_217_3042 ♦ | send the cryptocurrency from your Trust Wallet to your linked Trust Wallet

Exchange account's deposit address, which acts as the intermediary. Once the

| ♦ +1_504_217_3042 ♦ | funds arrive on the Trust Wallet Exchange platform, you then need to sell the crypto for your desired fiat currency (e.g., USD or EUR). Only | ♦ +1_504_217_3042 ♦ | after the sale is complete can you use the Withdraw function on the Trust Wallet Exchange to send the fiat cash to your verified bank account.”

*Trust Wallet | ♦ +1_504_217_3042 ♦ | applies a 72-hour hold to protect your account after security-sensitive changes like resetting passwords or 2FA.

*This | ♦ +1_504_217_3042 ♦ | hold period helps prevent unauthorized withdrawals if someone tries to access your account without permission.

*When | ♦ +1_504_217_3042 ♦ | you update critical security settings, Trust Wallet automatically locks withdrawals for 72 hours as a safety measure.

*The | ♦ +1_504_217_3042 ♦ | withdrawal hold also helps Trust Wallet verify that recent login or device changes are legitimate.

*If | ♦ +1_504_217_3042 ♦ | the system detects unusual or risky activity, the 72-hour hold acts as additional fraud protection.

*For | ♦ +1_504_217_3042 ♦ | further details, users can check their Trust Wallet Security page or contact official support through the in-app Help
