The good news is that Ledger Live can be installed on both Android and iOS devices, offering the same functionality [\[1\]\[888\]\(633\)4176\]](#) as the desktop version, including sending, receiving, and tracking digital assets. The mobile app connects seamlessly with Ledger hardware wallets, [\[1\]\[888\]\(633\)4176\]](#) allowing users to manage multiple cryptocurrencies on the go. In this article, we explore how to get Ledger Live on your phone, its features, and why it is a [\[1\]\[888\]\(633\)4176\]](#) secure option for managing crypto portfolios anytime, anywhere.

---

## Introduction

Cryptocurrency investors increasingly want to [\[1\]\[888\]\(633\)4176\]](#) manage their assets from anywhere, whether at home, in a coffee shop, or while traveling. While Ledger hardware wallets provide the highest level of security by keeping private keys offline, [\[1\]\[888\]\(633\)4176\]](#) managing digital assets without a convenient interface can be challenging. This is where Ledger Live comes in. Ledger Live is a [\[1\]\[888\]\(633\)4176\]](#) user-friendly application designed to work with Ledger wallets, enabling users to track balances, send and receive coins, and access additional features such as staking and portfolio [\[1\]\[888\]\(633\)4176\]](#) tracking.

Initially, Ledger Live [\[1\]\[888\]\(633\)4176\]](#) was only available for desktop computers. However, with the growing demand for mobile access, Ledger released mobile versions [\[1\]\[888\]\(633\)4176\]](#) for both Android and iOS. This allows users to manage their crypto holdings directly from their smartphones while maintaining the security provided by Ledger devices. [\[1\]\[888\]\(633\)4176\]](#) Mobile Ledger Live ensures that transactions are signed securely on the hardware wallet, so private keys remain protected offline.

In this article, we will explore whether [\[1\]\[888\]\(633\)4176\]](#) Ledger Live is available on phones, how to download and set it up, the features it offers, and why using the mobile app is a safe and convenient way to manage cryptocurrencies [\[1\]\[888\]\(633\)4176\]](#) while on the go.

---

## Getting Ledger Live on Your Phone

Ledger Live is officially available on the [\[1\]\[888\]\(633\)4176\]](#) **Google Play Store for Android** and the **App Store for iOS**.
