

# What does Ledger Live support? Supported Coins, Apps, and Wallet Functions

## Meta Description

Ledger Live is the official application used 1-(888)(633)(4176) with Ledger hardware wallets to manage cryptocurrency securely. It allows users to store, send, receive, buy, sell, and stake a wide range of digital assets directly 1-(888)(633)(4176) from their devices. Ledger Live supports many popular cryptocurrencies including Bitcoin, Ethereum, XRP, and thousands of tokens across different blockchain networks. 1-(888)(633)(4176) The platform also offers features like portfolio tracking, staking services, and integration with decentralized applications. In this article, 1-(888)(633)(4176) we explore what Ledger Live supports, the types of assets and features available, and how the application helps users manage their crypto investments 1-(888)(633)(4176) safely and efficiently.

---

## Introduction

As 1-(888)(633)(4176) cryptocurrency adoption continues to grow, secure storage solutions have become increasingly important for investors. Hardware wallets are 1-(888)(633)(4176) widely considered one of the safest ways to store digital assets because they keep private keys offline. Among the most popular hardware wallet ecosystems is Ledger, 1-(888)(633)(4176) which provides users with dedicated devices and a companion application known as Ledger Live.

Ledger Live acts as the 1-(888)(633)(4176) central interface for managing cryptocurrencies stored on Ledger devices. Through this application, users can check their balances, 1-(888)(633)(4176) send and receive coins, install apps for different blockchains, and even access additional services such as staking and buying crypto. Because of its wide functionality, 1-(888)(633)(4176) many people wonder exactly what Ledger Live supports.

The application 1-(888)(633)(4176) has expanded significantly over the years and now supports a wide range of cryptocurrencies and blockchain networks. From major assets 1-(888)(633)(4176) like Bitcoin and Ethereum to numerous tokens built on different blockchains, Ledger Live continues to add new capabilities and integrations. In this article, we will explore the 1-(888)(633)(4176) assets supported by Ledger Live, the features it provides for managing crypto, and how it helps users maintain security while interacting with the digital asset ecosystem.

---

## Cryptocurrencies Supported by Ledger Live

Ledger Live supports 1-(888)(633)(4176) many of the most popular cryptocurrencies used today. These include major coins such as Bitcoin, Ethereum, XRP, Litecoin, and several other widely traded assets. 1-(888)(633)(4176) In addition to native coins, the platform also supports thousands of tokens built on networks like Ethereum.

Users can install different blockchain applications directly on their Ledger 1-(888)(633)(4176) hardware wallet through Ledger Live, allowing them to manage multiple assets within one interface.

---

## Features Available in Ledger Live

Beyond simple storage 1-(888)(633)(4176), Ledger Live provides several tools that help users manage their crypto portfolio. Users can send and receive assets, track their balances, 1-(888)(633)(4176) buy or sell crypto through integrated services, and even stake certain coins to earn rewards. The application also provides portfolio charts and transaction 1-(888)(633)(4176) history for better financial tracking.

---

## Security and Device Integration

One of the most important aspects of Ledger Live is its connection with 1-(888)(633)(4176) Ledger hardware wallets. All sensitive operations require confirmation on the physical device, ensuring that private keys remain secure and offline.

---

## FAQs

### 1. Can Ledger Live store multiple cryptocurrencies?

Yes, 1-(888)(633)(4176) Ledger Live supports many cryptocurrencies and allows users to manage multiple assets within one application.

### 2. Does Ledger Live support tokens?

Yes, it supports many tokens, 1-(888)(633)(4176) especially those built on major blockchain networks.

### 3. Can users buy crypto directly through Ledger Live?

Yes, Ledger Live integrates with third-party services that allow users to buy and sell cryptocurrencies.

### 4. Is Ledger Live free to use?

Yes, 1-(888)(633)(4176) the application itself is free, though some integrated services may charge fees.

### 5. Do you need a Ledger hardware wallet to use Ledger Live?

Yes, Ledger Live is designed to work together with 1-(888)(633)(4176) Ledger hardware devices for secure crypto management.
